TAX MEASURES AGAIN

The House Reconsiders the Vote on One of the Longworth Bills.

ROYER RAILROAD BILL IS PASSED.

Senate Concurs in the Measure to Extend Term of County Clerks. Another Constitutional Amendment.

Columbus, O., April 29.—After enough members had arrived in the house to make the session interesting, Judge Thomas moved that the vote by which the Longworth bill was lost, be reconsidered. Then came a long debate. The bill as passed in the senate sought to change the method by which Ohio corporations are taxed when doing business outside of the state. The bill was defeated last Friday and the Thomas motion, after at least an hour of discussion, was defeated, thus placing the bill beyond hope.

Then came another motion to reconsider. This time it was made by Mr. Price and the bill which he wanted to reconsider was another bill by Senator Longworth, which had been passed. This bill amended the foreign corporation tax law so that the governor and the secretary of state could remit penalties when they saw fit. Mr. Meisel charged openly on the floor of the house while explaining his vote that deception had been practised, as a whole section had been eliminated from the original law. The motion to reconsider was carried.

With no opposition, the Royer bill to permit lines of railway not competing to consolidate was made a law by the house. The bill was introduced for the benefit of the Pennsylvania company, which wants to extend its line over the Vandalia, which it now controls to St. Louis. The law amends one already existing to permit non-competing lines to consolidate. The first applied to lines within the state, the second extended to adjoining states and the Royer bill extended it to states other than those adjoining Ohio.

Mr. Bracken's bill to prevent cheap soap swindles was made half a law. The bill forbids the adulteration of soap by the use of soap stone.

When the Echert bill came up on the calendar a row was precipitated between the Cuyahoga and Hamilton county delegations. The bill sought to relieve Cincinnati of the congestion of street car traffic at Fifth and Walnut. It provides that the Cincinnati board of legislation may grant the traction company the right to change the routes of its different lines. The bill was drawn to apply to all the cities of the state to which the Cleveland delegation objected. The bill was referred to Messrs. Meisel of Cuyahoga and Smith of Hamilton to get together.

The Roll bill, which sought to prevent divorced persons from marrying within one year from the date of the divorce, was defeated in the house.

Among the important bills introduced were the deficiency bill and a new municipal code bill. The code is an amended form of the old, retaining only the federal form of government plan and the merit system. The deficiency appropriations bill carries only about \$34,000, principally for the payment of extraordinary expenses. The bill was advanced to its second and third readings under suspension of the rules and enacted at once.

In the Senate.

The senate concurred in the passage of Mr. Buel's house bill extending the terms of county clerks from August to January, a period of five months, the bill providing that the clerks shall take their office in January instead of during the month of August.

The senate made laws of the Roland and McNamee bills providing that all passenger and freight trains shall be run with full crews, and providing penalties for violation of the laws.

The senate concurred in the adoption of Mr. Rannell's house joint resolution, amending the constitution of the state so as to provide that all counties shall have at least one representative in the general assembly. There are several counties in the state that have lost their representative.

Senator Burnham of Dayton introduced a bill which is intended to help that city secure the location of Otterbein university there, which is now located at Westerville, near Columbus. The bill provides that three-fourths of the members of the present board present at a meeting may vote to change the location, while the present law requires a three-fourths vote of all the members elected. Senator Moore of Athens introduced a bill which allows municipalities to issue bonds for natural gas purposes.

It is supplementary to the Longworth-Herrick general bond issue law for municipalities.

Odell at New Orleans.

New Orleans, April 29.—Governor B. Odell, Jr., of New York, reached here in his private car from Atlanta. He is accompanied by his father, members of his family and Senator Ellsworth, president of the New York senate. The governor will remain until Thursday forenoon and will then resume his trip to Los Angeles.

ORGANIZER FLYNN

Still Seeking a Hearing Before the Amalgamated Association.

Wheeling, April 29.—The Amalgamated association is busy receiving committee reports. Business is being rushed through as quickly as possible to reach the election of officers and adjournment. National Organizer Flynn of the Federation of Labor, President Gompers representative, is still here trying to secure a hearing, but so far without success. Wheeling seems to be Pittsburg's leading opponent for the association headquarters, but the Pittsburgers are very confident that no change will be made, this year at least.

Columbus and St. Louis are both waging a warm contest for the 1903 convention, and the publication of an interview with President Francis of the world's fair in which it is admitted the exposition may be postponed until 1904, has improved Columbus' chances.

The new scales as ratified are virtually the same as were in operation last year. They will be in force till July 1, 1902. The action in ratifying the scale is another victory for President Saffer.

Mexican Treaty Considered.

Budapest, April 29.—The lower house of the Hungarian diet ratified the Austrian-Hungarian commercial and consular treaty with Mexico, which lapsed in 1867, and had not since been renewed. The official *Fremdenblatt* of Vienna announced April 20, 1901, that the friendly reapproachment between Austria-Hungary and Mexico in consequence of the erection of an explanatory chapel at Queretaro, where Emperor Maximilian was executed in 1867, would result in an early resumption of diplomatic relations between the dual monarch and the Mexican republic interrupted since the emperor was shot. The same day a bill was introduced in the congress of Mexico providing for a renewal of diplomatic relations with Austria-Hungary and an appropriation of \$15,000 was made for the salary of a Mexican minister to Austria-Hungary. June 1, 1901, Count Gilbert Hohenwart was appointed Austrian-Hungarian minister to Mexico.

Wynn's Naval Record.

Washington, April 29.—Captain Robert Francis Wynn, one of the American officers arrested at Venice, was appointed second lieutenant in the marine corps. He was in the fight at Guantanamo and won distinction there and elsewhere in Cuba. He was then assigned to the Oregon and salled to the Philippines, where he had hard service, chiefly in the nature of outpost duty. He was sent with the marines to China, under Major Waller during the siege of the legations and was in the five days' march to Tien Tsin. Major Waller recommended him for bravery. For 18 hours during the battle of Tien Tsin he was under fire and Colonel Meade recommended him for gallantry. He was in the march to Peking and was made ranking officer in recognition of his fine service.

Hart's Opinion of Lajoie Case.

Chicago, April 29.—President Hart of the Chicago National league club, and member of the league's governing triumvirate said of the Pennsylvania decision in the Lajoie case: "The injunction cannot be circumvented. Talk of carrying the case to the United States supreme court is ridiculous as the Pennsylvania supreme court is the court of last resort in that state."

Boulangism and Adventure.

Paris, April 29.—In the result of the elections just held, it is evident that the fierce attack skillfully organized by the Nationalist leaders against the policy of peace and internal development pursued by Waldeck-Rousseau and his colleagues has failed and that it is hopeless to persuade the French people to follow those who wish to revive the days of Boulangism and adventure.

Vessel Disabled.

Hamburg, April 29.—The Hamburg-American line steamer *Deutschland*, disabled at sea by the loss of her rudder, while on a voyage from New York, has been examined and the officials of the company admit that the repairs will necessitate laying up the vessel for some time.

SWEPT BY A TORNADO

The Little Town of Glenrose Is Wiped Off of the Map of Texas.

MANY PEOPLE KILLED OR INJURED.

A Terrible Disaster Befalls the Inhabitants of County Seat of Somerville County—Loss of Life and Property.

Houston, Tex., April 29.—The small town of Glenrose, county seat of Somerville county, has been nearly swept away by a tornado. As a result of the fearful wind storm six are known to be dead and between 40 and 50 persons are injured.

The dead are: Mrs. C. A. Milan, Mrs. Jane Musgrave, little child of Mrs. Musgrave, little daughter of J. B. Milan, Miss Mary Connell, Rev. Ford.

The most seriously hurt are, as far as known: Four members of Judge J. D. Milan's family, six members of C. A. Milan's family, E. T. Lee, Mrs. E. T. Lee, child of Tom Price, Mrs. Fields, H. H. Lewis, R. E. Lewis.

Glenrose is located on the Faluxey river in a valley. The tornado came down the valley, sweeping everything before it. It struck the town in the business district and about one-third of the stores were wrecked.

A hard rain succeeded the storm and stocks were ruined, damaging what had not been destroyed by the wind. The western portion of the residence part of town was struck. Here were located most of the residences, the town being a small one, but a noted health resort. Some of these houses were commodious and well furnished.

The frame houses were simply torn asunder and scattered. Their inmates had no warning of the impending calamity and it was here that all the fatalities occurred. There were many miraculous escapes and many failed to escape. How many cannot be told until communication has been re-opened. The residence of Mrs. Connell, one of those wrecked, caught fire and with two others were burned.

The property loss is roughly estimated at a quarter of a million dollars. It may prove to be much greater when all the facts are known, for there are undoubtedly other sections which have been devastated up and down the river. It may be several days before the entire story of the disaster is known.

The town is cut off from wire communication and all the facts have come from neighboring towns which have been reached by refugees.

Glenrose is the county seat of Somerville county and has a population of about 800 people.

The Fort Worth and Rio Grande will run a special train to the stricken town. A board of supplies will be organized for the sufferers.

Check For \$1,000.

Tuskegee, Ala., April 29.—The Ogden party reached Tuskegee and were driven to the Alabama conference college, where they were given a reception under a huge oak tree on the campus. Following this they went to the Tuskegee normal and industrial institute, Booker T. Washington's school for colored students for the day's exercises. Besides the Ogden party there were present Governor Jelkes of Alabama; Postmaster Atkinson of Atlanta and President Charles A. Wickersham of the Atlanta and Westpoint railway. Mr. Atkinson handed Principal Warhn a check for \$1,000 to help on the work. The forenoon exercises at the institute were devoted to the dedication of the Carnegie library, followed by old fashioned outdoor barbecue dinners. The annual exercises of Tuskegee institute were held in the afternoon.

Place For Evans.

Washington, April 29.—There is a probability that Commissioner of Pensylvannia Evans will be offered the position of consul general to London to succeed William McKinley Osborne, whose death was announced. White House officials are reticent in regard to the matter, as is also Mr. Evans, but there is reason to believe that the president would very much like to have him accept it and the chances are decidedly in favor of its being offered to him. The state department received the following cablegram from Vice and Deputy Consul General Westcott, dated April 29: "Deeply regret to report death this morning of General William McKinley Osborne."

Philadelphia, April 29.—The submarine boat *Fulton* and her two convoys, the yacht *Mindora* and tug *Storm King*, put into the Delaware breakwater. The *Fulton* is making an ocean trip from New York for Norfolk. A gasoline explosion occurred on the *Fulton*, injuring four of her crew.

LONDON PAPERS

Are Anxiously Discussing the Atlantic Shipping Combine.

London, April 29.—The Atlantic shipping combine continues to attract attention. The subject is being discussed by papers in all parts of England.

"But what is Gerald Balfour (president of the board of trade) against J. Pierpont Morgan?" asks the Westminster Gazette, in urging the government not to accept Mr. Balfour's reassuring statement not to rely on the passionate assertions of the sentimental attachment of the ship owners to the British flag. Referring to recent statement of the Shipping Gazette, the Westminster Gazette voices the public inquiry as to the differences between the sale and the transfer of White Star line shares to the shipping combine.

Meanwhile another "authoritative statement" in the Liverpool Express will serve for the subject of further guessing on the part of both the public and the ministers. "The combine," says the Express, "will prove much more favorable to British interests than has up to the present been suspected. There will be no sale of British ships to J. Pierpont Morgan. There will be combination of companies registered in America on the basis of a nominal capital, which will be the individual value of each boat in the various fleets entering the combination. Each cargo and passenger boat will be valued separately. There will be an agreement so far as freight rates are concerned and will declare the gross freights carried by each boat. These will be pooled and will be divided pro rata with the capital. It will thus be seen that the separate management of each concern will be continued and that the company which can manage its fleet most economically will receive the larger proportion of the net profits. Provision will be made whereby other companies can join the combination at any time on similar terms. As the majority of the ships will be British the combination cannot be managed adversely to British interests."

A shareholder meeting of the Leyland line in London brought together a number of ship owners prominent in the combine, such as Messrs. Wilding, Pierrie and Torrey, and a representative of the press was assured that there was absolutely no change in the situation which was exactly as outlined in the dispatches April 17.

GENERAL MACARTHUR

Says He Was Responsible For Death of Capturing Aguinaldo.

Washington, April 29.—The senate committee on the Philippines resumed the examination of witnesses in connection with the investigation of affairs in the Philippine islands. General MacArthur continued his examination. He explained that the statement in his annual report of June 30, 1900, that "the United States had accepted sovereignty by treaty and in a way owned the Philippine islands, but did not own the Philippine people," by saying that these conclusions were reached after conversation with an indefinite number of people and observation and that they represented the bulk of the views of the Nationalist party. He then, in response to questions by Senator Patterson, described the different towns embraced within the American lines on the night of Feb. 1, 1899, when the outbreak occurred and identified what purported to be a copy of the order of General Luna for the massacre of the foreign residents of Manila. Senator Patterson sought to show that it was not difficult to deceive Aguinaldo by forgery and referred to his capture by General Funston through a forged letter signed "Lacuna." General MacArthur with considerable emphasis declared that General Funston was not responsible in any way for any of the methods which obtained in the capture of Aguinaldo. "I am responsible in that matter in every way and particularly," said General MacArthur. "It was one of the deceptions frequently practiced in war and whatever deception attaches thereto I take."

Morton Obsequies.

Chicago, April 29.—Funeral services over the late J. Sterling Morton, former secretary of agriculture, were held at the First Presbyterian church at Lake Forest, the Rev. Dr. J. K. McClure, pastor of the church, officiating. Relatives and friends of the deceased were taken to Lake Forest on a special train to attend the services. Later in the day the body will be taken on a special train to Nebraska City, where the final services will be held and interment made.

Caught in a Gale.

Dunkirk, France, April 29.—Advices received here say that the French fishing fleet was caught in a gale in the North sea and that three schooners foundered and that many lives were lost.

THE AMERICAN CONSUL

Dies at His Official Residence in Wimbleton Near London.

COUSIN OF THE LATE PRESIDENT.

United States Consul General Osborne, Who Was Appointed by President McKinley Is Called to His Long Home.

London, April 29.—United States Consul General Osborne, died at his residence in Wimbleton at 10:30 a. m. William McKinley Osborne was appointed consul general at London by President McKinley on March 18, 1897. He was born at Girard, Ohio, in 1842. Later he removed to Boston. Mr. Osborne was a cousin of the late President McKinley.

Mr. Osborne's death was not a surprise to his friends. He had been confined to his home since November last, suffering from bright's disease and dropsy, which latterly affected his heart. He was conscious until near the end. The deceased never had been absolutely well since he arrived in England.

DANISH STATESMEN

Act Favorably On Majority Report of Island Deal.

Copenhagen, April 29.—The bill providing for the sale of the Danish West India islands to the United States as amended by the Landsting came up for discussion in the Folketing with the result that the party in the majority submitted a proposal as follows:

"The rigedag (diet, composed of both houses) approves the cession, on condition that the inhabitants of the islands declare in favor thereof by a plebiscite, similar to the one taken in 1867."

The Folketing, by a vote of 96 to 7, adopted the majority proposal.

Will Stop Work.

New York, April 29.—Work on a hundred large buildings which has been partially interrupted by the lock-out of 3,000 plasterers in this city, will be brought to a standstill should the movement to call a sympathetic strike, now on, be successful. In addition to these buildings there are a dozen "skyscrapers" already behind time in construction, which will now be still further delayed. Fourteen mammoth office buildings costing \$24,000,000, most of them below Malvern Lane, are under contract to be completed by May 1, but Building Superintendent Stewart says only two of them can be ready on time. The chief cause of this delay is scarcity of iron and steel and of labor.

In Peace Quarters.

Cincinnati, April 29.—Eleven companies of the Third infantry, United States army, commanded by Colonel J. H. Page, which sailed from Manilla March 18, reached San Francisco April 15, arrived at Fort Thomas, where it will go into peace quarters. The regiment has been in Cuba and in the Philippines since the beginning of the Spanish-American war, sauching its Cuban and Philippine service with suppressing an India on break in the northwest in the latter part of 1898. Company B of the Twentieth Infantry, which has been doing garrison duty at Fort Thomas, left by the Baltimore and Ohio for Columbus barracks.

Excitement Subsiding.

London, April 29.—Excitement caused by the shipping deal is subsiding, owing to the maze of contradictions and the lack of authentic information, but the sense of irritated uneasiness remains unmistakably independent. Dominion officials here who are highly excited over the reports received at the emigration office that the shipping combination, with two Canadian lines in it, is already interfering with systematic operations are still further alarmed by the announcement that Bureau Commissioner Preston has confirmed the reports.

Collieries Purchased.

New York, April 29.—Formal announcement has been made that New York banking interests have purchased the entire stock of the Pocahontas (Va.) colliery company. It is largest independent company operating in the Pocahontas coal fields and was one of the first to be located. It owns the city of Pocahontas and all its public works. The property has been turned over for operation to a New Jersey company lately organized with a capital of \$5,750,000.

New York, April 29.—Stranded on Ellis Island, with a three weeks' old baby in her arms is a young woman, who but for the accident which happened to the steamship Neckar in February last, causing it to be towed into Halifax, would now be living with her husband in Salem, Ohio.

APPELLATE CONVENTION.

At a meeting of the Appellate Committee in Newport a resolution was adopted providing that in the event no one other than Hon. T. H. Paynter offered for the Democratic nomination for the office of Judge of the Court of Appeals on or before April 26th, 1902, then the Chairman of each county was authorized and directed to select delegates to attend the Appellate convention and instruct said delegates to vote for Hon. T. H. Paynter.

Now, therefore, in pursuance to the foregoing resolution, I do hereby appoint each and every known Democrat in Mason County a delegate to the Appellate convention to be held in Maysville, Ky., at the court house thereof on May 6th, 1902, and the Democrats of Mason County present at said convention will cast the vote of Mason County for the nomination of Hon. T. H. Paynter as the Democratic candidate for the office of Judge of the Court of Appeals. Respectfully,

T. D. SLATTERY, Chairman.

REPRESENTATIVES of the beef trust are trying to explain the high price of meat by the advance in the price of cattle. Commenting on this the Louisville Commercial says:

The price of beef on the hoof has advanced \$1.60 per 100 pounds within a year, and the price of dressed beef has advanced \$4 a hundred in the same time. Beef dresses about 60 per cent. of the weight on foot, and there is the offal as a considerable offset to this loss, so that \$2 advance in dressed beef would be a liberal allowance, and the beef trust is simply pocketing a profit amounting to about 25 per centum.

SIBLEY'S SCORCHER.

Congressman Sibley of Pennsylvania spoke on the Philippine question Monday and his criticism of the conduct of the war by General Smith was so scorching hot that the words fairly sizzled. "It was evident," says the dispatch, "that an attempt had been made to dissuade him from speaking, but he said he would not wait for justification for Smith, for there could be no justification for such conduct.

He denied the right of any such man to wear the United States uniform, and instead of calling on the President to remove Smith from office, he announced that his implicit belief in the justice of the President was such that he believed he would strip the uniform from Smith's back within twenty-four hours. Continuing Mr. Sibley said:

"When I have heard the statements made that we were cruel in the conduct of that war, I have thought, perhaps, the partisan was speaking. But when I have read, as I have within the past forty-eight hours, that a General wearing the uniform of the army of the United States, one who stands under the shadow of our flag, issues orders, not to conciliate a province, but to leave it a howling wilderness, and to kill all above ten years of age, then it seems to me humanity must have marched backward for eighteen centuries, and that Herod again appears. I have read of Timour the Tartar; I have read of Ochilles; I have read of the Saracen scourge, but thank God that since the tragic scene on Calvary it has taken eighteen centuries to produce a Smith. I have read of the water cure. I believe that was exaggerated.

Can any man whose blood pounds in his pulse, any man who has read his Bible or who has reared at the knee of a Christian woman, justify the perpetration of such cruelties upon another man who wears the guise and the image of his Creator? And yet, we hear this man attempting to justify acts by which men are pumped so full of water, nearly to drowning them, and then brought back to life by thumping them over the stomach with the butts of muskets. That is not civilization—that is not Christianizing the world.

I am thankful that these are sporadic cases. Against that, as a man who belongs, I hope, not alone to the Republican ranks, but to the whole brotherhood of man, the wide world round, I want the members of this House, on this side of the chamber and that, to voice their protest, and against all such measure. I hope the President of the United States will have the courage, upon what the man admits, to discharge him dishonorably from the service that he has disgraced. He admits that he issued the order to leave the province a howling waste and a wilderness, and to kill all above ten years of age, the innocent with the guilty. That man never ought to be permitted to stay in the service of the United States until the sun goes down. He is a disgrace not only to the party, but to every man who ever wore the uniform of the United States, and he is a blot and a disgrace to our present civilization.

THE P. N. CORSET.

Eighteen models now. Such choosing as is possible with no other corset. All different, all alike, in being "P. N." in goodness and character of make. It pays to search, no matter how long, for the best corset—that is, it pays you to take advantage of the long search we made. P. N. Corsets for 1902 are better than ever, because—

First—They are made with cork protected steels. Second—All steels and boning wire are rust proof. Third—All boning wires are tipped, which prevents them breaking through. Fourth—Materials, workmanship and shape are vastly improved.

Once suited in a P. N. always suited. Simply take time in buying the first, study the requirements of your figure, and you will have no further trouble. To-day we mention only a few styles, further details later.

NO. 45.

Medium waist length, jean body, sateen strips. Curved hips, lace edge top and bottom. Price 50c.

NO. 43.

Short waist, hip contil body, two side steels on each side, Roby underbust, 4 hook clasps. Price 50c.

NO. 110.

Practical side. Long waist, sateen jean body. Two side steels on each side, reinforced by movable side pieces. Price \$1.

NO. 309.

Same style as 110, but in medium waist. Four hook clasps, 11 inches long. Price \$1.

THREE THINGS

To recommend P. N. Practical Side Corsets:

First—The extra side pieces make the corset unbreakable.

Second—if the corset bends or "sets" on the side, the extra pieces may be reversed, making the corset straight.

Third—if greater suppleness is desired in the corset for reclining, the side pieces are easily removed. Unequalled for women annoyed by corsets breaking at the waist line.

NO. 714.

Gored corset, medium low bust cut V, straight front, long skirt, sateen throughout, inside boning, wide lace edging, with ribbon insertion at top, tabs in front for attaching hose supporters. Price \$1.

CONDITION OF CROPS.

Weekly Report of the Weather Bureau, For the Period Ending April 28.

The temperature averaged considerably above the normal during the week, but high, dry winds prevailed to such an extent as to seriously retard the advancement of growing crops. Nearly everything was in need of rain, and in some localities crops were suffering, but the situation was relieved by abundant general rains just at the close of the week.

Wheat is looking fairly well, but is not advancing rapidly.

Tobacco plants are generally rather small and thin in beds, but appear to be in good condition otherwise.

Oats, rye and grass in meadows and pastures are making rather slow growth.

Corn planting has advanced rapidly, and in the early fields in the western section of the state it is coming up well.

Fruit trees are in bloom and the outlook is generally favorable, except for peaches; in most localities the peach crop will be very light. Strawberries and other small fruits look promising. Gardens are planted, but are coming up slowly. Potatoes are planted and the early crop is coming up well.

Cutworms are reported to be numerous in some localities in the south-central portion of the State.

Farm work is well up.

Day of Resignations.

[Winchester Democrat.]

Last Saturday was a day of resignations

for J. M. Benton, our new Circuit Judge.

He resigned the presidency of the Winchester Building and Saving Association, the best institution in the city; he resigned the attorneyship for the Cumberland Telephone Company, the attorneyship for the L. and N. Railroad, the attorneyship for the C. and O. Railway Company, the attorneyship for not fewer than fifty persons in the county who kept him retained, the office of Master Commissioner, the chairmanship of the Democrat Committee, as the member of the committee for the Winchester precinct, and as the Democratic member of the County Board of Election Commissioners.

PITHY POINTS.

It's nothing to the credit of the Republican party that Berry Howard was acquitted.

The acquittal of Berry Howard will only make that penitentiary trio "champ the hit" the harder.

"Not guilty" might have been more news to Berry Howard himself than it was to other people.

Taylor will imagine, since the acquittal of Berry Howard, that he was telling the truth about his own innocence.

Because guilty men do escape sometimes was the occasion of General Grant's famous saying, "Let no guilty man escape."

That penitentiary gang won't go into ecstasy merely because Berry Howard wasn't given the same dose that was administered to them.

Had Taylor known there was such injury material in Franklin County maybe he wouldn't have split the wind and water getting to Indiana.

The acquittal of one Howard doesn't make the guilt of the other Howard and his co-conspirators any the less flagrant, positive and pronounced.

Because Berry Howard failed of conviction doesn't establish that the jury which found against the three convicted assassins all perjured themselves.

You might make some people believe that Berry Howard jury were all Democrats, but it would be a tough job to inoculate Durbin and Taylor with that belief.

Because Berry Howard failed of being convicted doesn't make it any less apparent that Gov. Goebel was assassinated at the hands of banchmen and emissaries of fugitive W. S. Taylor.

That jury which acquitted Howard ought to have followed a precedent set by a jury not far from here, once upon a time: A man having been acquitted of carrying concealed weapons, three of the jurors were sent to admonish his wife to see to it that her husband never did such a thing again.

Miss Jessie Wells, of Helena, is making semi-weekly trips here as a pupil in music of Mrs. Hattie Mitchell.

Pro. W. R. Chandler and Miss Mayme Yancey will close a successful school term Wednesday and will take a bus load of merry lads and lasses to Blue Licks for a few days' outing Thursday.

No words of praise are needed to describe the noble efforts of these efficient teachers to help their pupils toward the heights of learning; their work speaks for itself, and is appreciated by patrons and pupils.

"Have by some surgeon Shylock on thy charge to stop his wounds lest he do bleed to death." People can bleed to death. The loss of blood weakens the body. It must follow that gain of blood gives the body strength. The strengthening effect of Dr. Pierce's Golden Medical Discovery is in large part due to its action on the blood-making glands and the increased supply of pure, rich blood it produces. It is only when the blood is impoverished and impure that disease finds a soil in which to root. The "Discovery" purifies the blood and makes it antagonistic to disease. When the body is emaciated, the lungs are weak, and there is obstinate lingering cough, "Golden Medical Discovery" puts the body on a fighting footing against disease, and so increase the vitality that disease is thrown off, and physical health perfectly and permanently restored. It has cured thousands who were hopeless and helpless, and who had tried all other means of cure without avail.

Twenty-one one-cent stamp to cover expense of mailing only will obtain a copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, in paper cover. Send thirty-one stamps to cloth binding is preferred. Address Dr. R. V. Pierce, Buffalo, N. Y.

—Mr. and Mrs. Thomas Mulone, relatives in Clark Station, are visiting relatives in Louisville this week.

—Dr. Landman, the oculist, will be at the Central Hotel Thursday, May 1st.

THE SECRET OF

Good Clothing

Lies in the length of time it can be worn without appearing old. Lots of cheap suits look well in the windows, but after wearing them a few weeks their shape is gone and it's all up with them. Our Rochester made goods are always good for two entire seasons—we see many of our customers wear them three seasons and still look "good."

Our entire spring line is in, and such a feast in good things as we set before you is rarely the privilege of clothing buyers to partake of.

Not only in clothing beginning with the little fellows up to the largest of the genus homo, but in all that pertains to the sterner sex's outfit, we have the best that is made for your inspection. We call your attention to our wool crash cutting suit and pants, our Norfolk coats and pants, the very swellest of the swell. Our two button Double Breasted Serge and Thibet Suits are the proper caper for good dressers.

Take a glance at our Hopkins Straw Hats. Our Hanna Low Cut Shoes. Our Manhattan \$1.50 to \$2.50 Shirts. More like them were ever shown here before this season. In short, ours is "the" store if you want the "right thing" at the "right price."

THE BEE HIVE

HOT WEATHER is coming, of course. The weather man says it's 103 degrees out West and coming this way. Whew! we hope it won't be as hot as it was last year, but you can't tell. Better get ready as soon as you can—RIGHT NOW, these cool April days. So many things you wouldn't have to make if you only ask us about it.

SHIRT WAISTS.

WHITE, of course, and Gibson style if you want it. And they might just as well be pretty; one pays as little for good styles as for poor. Depends on the store one goes to. THE LARGEST BUSINESS IN THE FURNISHING OF WOMEN'S OUTERWEAR HASN'T CENTERED HERE BY CHANCE.

CORSETS.

One wants comfort, whatever the calendar says. This Corset store wouldn't do its full duty if it did not anticipate your wants for all seasons. Summer Corsets ready. Summer mesh finest batiste, straight fronts, high bust, low bust, girdles corsets for shirt waists or gowns, 50c. up.

Newest Wash Fabrics.

A brilliant array in the choicest of the season's styles in this the biggest wash goods department in Maysville. Every conceivable weave, material or coloring found in this immense stock and every piece marked at price that mean the biggest kind of saving for our patrons. PASSED THE HOUSE.

Measure Appropriating Thirty Thousand Dollars for a Public Building at This Point.

President Duley of the Board of Trade was yesterday notified that the bill appropriating \$30,000 for a public building at Maysville had passed the House of Representatives Tuesday.

The good news came in the shape of a special telegram from Congressman Kehoe, to whom special credit is due for his untiring efforts in pushing the measure to a passage.

The Mutual Telephone Company has received the first load of the 1,000 poles ordered and will begin setting same at once. It has also contracted for 100 telephones of the latest pattern, including the selective ringing, whereby any instrument may be rung without calling the others, doing away with "ruhbering." All the material is on the way and the Lexington, Hill City and Mt. Sterling lines will be built at once, and then work begun on the others.

There will be a meeting of the Dr. Basil D. Duke Chapter, U. D. C., on Tuesday morning, May 6th, at 9:30 o'clock, at which time there will be an election of officers for the ensuing year. Every member is urged and expected to be present or not fail to send their vote, as our constitution requires that new officers be elected.

THE "ANTLERED HERD."

Plans Perfected For the Entertainment of Kentucky Elks at Louisville, May 29th-30th.

Chairman Brown, of the Reunion Committee, having in charge the program of the first annual State reunion of Elks at Louisville, announces that everything is now in readiness for the big convention on May 29th and 30th, and that fully 1,000 delegates will attend the reunion. This estimate does not include the 167 sponsors and maids, nor the hundreds of visitors who will be attracted to the city as a result of the gathering.

The morning of the first day—May 29—will be spent in convention at Elks' Home, Walnut street, between Third and Fourth. This will be official reunion headquarters, and will be elaborately decorated for the occasion.

The entertainment program begins at 2 o'clock in the afternoon of the same day, when the visiting Elks will leave the home for a trolley ride over the city. Stops will be made at all the principal hotels to take on those who do not meet with the party at headquarters.

The excursion will then proceed to Jacob Park, where the visitors will be treated to an open air vaudeville show and served with refreshments. The return to the city will be made at 5:30 o'clock, and the evening will be spent visiting the Elks' Charity Carnival.

On the morning of the second day, May 30, the visiting ladies and wives of delegates will be met at Elks' Home by the Ladies' Auxiliary Committee, of which Mrs. R. W. Brown is Chairman, and will be taken on a foot journey through the shopping district. An organ recital at one of the down-town churches is also included in the morning's program.

The afternoon will be devoted to an excursion up the Ohio on the steamer Columbia, the boat leaving the foot of First street at 2 o'clock in the afternoon. There will be music, dancing and refreshments. The party will return to the city at 5:30 o'clock.

During the evening the most unique feature of the program will be carried out. This will consist of what the committee has been pleased to style, "A Night in Bohemia," and will be given in the old Vienna.

The program will conclude with a grand ball to the sponsors and maids of honor at 10:30 o'clock at Elks' Home. This, it is said, will be one of the most brilliant functions ever seen in Louisville.

Simple Plan Discovered by a Prominent Grower to Rid Tobacco Beds of Cutworms.

Mr. John R. Downing says the cutworms are playing havoc with the tobacco beds in his vicinity. Saturday he did a little experimenting, with results so satisfactory to himself that he feels growers will profit by following his plan of extermination.

On a bunch of newly-cut clover Mr. Downing sprinkled a little Paris green, which he placed under the canvas of a plant bed. During the night the worms came up and attacked the fresh clover, which soon put Mr. Cutworm out of the business. In a space about two feet square next morning was counted twenty of the dead pests.

This method is a simple one, and, as Mr. Downing has discovered, is very effective. It is at least worth a trial by farmers.
